No.DB3/6512 (B)/2013/CE/LSGD

02.02.2017

CIRCULAR
(01/Technical/2017)

Sub: Preparation of Revised Estimate in PRICE – reg
Ref: GO(P) No. 498/15/Fin. Dated 03.11.2015

As per the government order cited, all the estimates for public works are prepared and technical sanction accorded using PRICE software. Now some LSGIs have requested to issue guidelines for preparing revised estimates through PRICE.

Currently, preparation of Revised Estimates through PRICE is not possible since NIC has not prepared the module for entering contractor's quoted rate in the estimate. The same is under preparation.

Under the above circumstances revised estimate for projects shall be prepared manually. The deviation and conditions of approval of revised estimate are as per plan guidelines and prevailing Government Orders.

This temporary arrangement shall be resorted to until the Revised Estimate module is activated in PRICE.

Chief Engineer
